

To all guests who rent or stay in a house within the community of Lövåsens Samfällighet

Here are some important rules that must be observed so that your stay with us will be as pleasant as possible, both for yourself and for other residents and guests in the area.

1. Garbage containers

The containers in the area are intended for household waste only.

The green bag is intended for food waste only and can be placed in the same containers.

In the village Sparreholm, it is possible to throw away glass, plastic and paper in separate containers. All other waste must be transported to the recycling center in Flen.

2. Dogs

Dogs must be kept on a leash throughout the area.

Dogs are not allowed to bathe at the bathing areas but are welcome in the harbour.

3. Bathing areas & bathing piers

Fishing is prohibited at the bathing areas and from the bathing piers for safety reasons.

Dogs on a leash are allowed, but they are not allowed to bathe here, only in the harbour.

4. Drinking water

The drinking water must not be used for irrigation purpose. This does not apply if the water comes from the own well on the property or if water from the lake is used. Ask the property owner what water supplies are available. Car washing is generally not recommended as large parts of our area constitute a water protection area.

5. Harbour

There is a ban on bathing from the jetties in the harbor for safety reasons – risk of injury!

Canoes must not be placed on the ground, but only in the stand intended for the purpose.

Fishing and dog bathing are allowed in the harbour.

6. Boat

Information about the location of the boat that may be included in the rental agreement is provided by the property owner.

7. Sauna at the lake

Booking can be made via the property owner.

We wish you a pleasant holiday!

Kindest regards

The board of the community

September 8th 2024

I have taken note of the contents of this letter and promise to observe the rules and also to inform my co-tenants/roommates about them.
